## EDITORIAL

Welcome to the fall edition of the *Classical Numismatic Review*. It is hard to believe that this is the fourth issue of the year. We are gearing up for an active final quarter. We have two auctions currently in production for the New York International in December. During November, we will be attending shows in Los Angeles, San Francisco, Houston, Dallas and San Antonio. We conclude the year, in December, with the New York International.

This Review offers a wide variety of coins acquired over the summer. We were fortunate to purchase several large collections, and we are able to list here a wide variety of mostly inexpensive but interesting coins. Special sections include Parthian, Constantinian from the Nether Compton Hoard, Dark Ages, a herd of elephants from Mysore, halfcrowns of Charles I, a nice run of English milled with many key dates, English silver tokens and Irish pennies of Henry III. There are no special offerings on this list. Our special offerings have been quite successful over the last couple of years, and this section of the list will be expanded and incorporated into the fall book list which will be sent out later this year.

1994 has witnessed several major changes in the numismatic field. One major American firm has closed its doors and another has been forced into bankruptcy. There has been much speculation as to how this will affect the numismatic market. We believe that the market will carry on with little overall change, as remaining and new firms fill any void left as other firms exit. The backbone of numismatics is the collector. Our primary goal at CNG has been and will continue to be - to offer quality coins and books at current market prices to the worldwide collector fraternity.

Annual subscription notices will be going out in November. Not everyone will receive a subscription notice. We have a very simple policy on deciding whom we bill for the annual subscription. Our costs are such that if a person spends \$450/£300 a year with us, we can afford to send out the *Classical Numismatic Review* and auction catalogues without charge. For customers who spend less than this amount, we must request a subscription fee, which only covers of our printing and postage costs.

We are currently making plans for 1995. Next year we will be expanding our offerings of books and specials. Future mailings will be going out to a much wider customer base. *The Classical Numismatic Review* will undergo a few modifications (these changes are under lock and key for the moment - you'll have to wait until January to see what they are). Auctions will continue at the four-a-year pace. If you are considering selling at auction in 1995, please talk to us as soon as possible. Consignments are coming in almost daily and future sales are starting to fill up.

Happy hunting this fall.

## The Classical Numismatic Society of the Delaware Valley

by Philip A.J. DeVicci

I am announcing the formation of the Classical Numismatic Society of the Delaware Valley. Our first two meetings will be held on Saturday, November 19 and Saturday, December 17 at 1:00 P.M., in the William G. Rohrer Memorial Library in Westmont, New Jersey. Westmont is just a few miles from Philadelphia, and the library is less than two miles from the Collingswood Station of the high-speed line from Philadelphia. Yearly dues have not been set, but it has been suggested that five Havana cigars would be the yearly amount with a 10-year membership being supplied for one cask of good port. Refreshments will be served but neither smoking nor the consumption of liquor is allowed, and remarkably, the library possesses not one gout stool.

At our first meeting on November 19th, we will organize the club, plan topics for future meetings, and perhaps go out for dinner afterwards. At our second meeting on December 17th, members will bring counterfeit coins for discussion and comparison with genuine coins.

The greatest joy in collecting comes from the sharing of mutual interests and experiences. Stories of the hunt, acquisitions made or lost, and information wrenched from the dim mists of history enrich our hobby. When I attend auctions or conventions, I cherish the meeting of other like-minded individuals, yet the pursuit of numismatic material at the tables of knowledgeable and informative dealers competes with meeting similarly inclined collectors. Before going to conventions, I mark up the schedule with a long list of meetings and talks I should like to attend. Invariably the lure of the convention floor and the possibility of unearthing a new numismatic gem keeps me from attending most meetings. I have thus formed this society in hopes of attracting collectors and scholars. The meeting place is less than two hours from New York or Delaware and the meeting time will allow members to return home at a reasonable hour.

The club, being new, has no set format, and members attending the first few meetings will have the greatest influence in setting the club's style and flavor. I hope that we will eventually have a broad membership with many intellectual resources to draw upon. I urge all those who yearn for numismatic companionship to join us. For more information, interested individuals may call me at 609-866-0463.

## The Placement of Atilius Saranus in the Sequence of Roman Republican Moneyers

by Peter Lampinen

1. The new variety of Atilius Saranus. Atilius Saranus. Circa 155 BC. AR Denarius (4.06 gm). Helmeted head of Roma / Victory driving biga right; C\*SAR below horses, ROMA in exergue.

2. The standard type of Atilius Saranus. AR Denarius (3.78 gm). Helmeted head of Roma / Victory driving biga right; SAR below horses, Roma in exergue. Attilia 1; Sydenham 377; Crawford 199/1a.

Atilius Saranus, the first of the Atilii family to place his name on Republican denarii, has been assigned a date circa 155 BC by Crawford in Roman Republican Coinage. A recent discovery piece now suggests the sequence of moneyers within that period needs to be rethought. The sole denarius issue of Saranus is quite standardized - helmeted head of Roma / Victory driving biga right, SAR or SAR monogram below horses, ROMA in outlined box in exergue. The reverse of the new piece has C\*SAR below the horses. The praenomen of the Atilius in question was probably the Sextus who is known to have been elected consul in 136 BC; an earlier Gaius Atilius Saranus was consul in 170 BC, but that would give a date circa 190 BC for his possible placement in the college of moneyers, too early, evidently, for this coin. A closer examination of the first letter of the name shows that there was further working of the die around the initial C\*, as if an attempt was made to remove that letter. No denarius of Atilius is known with a C praenomen.

There is, in fact, a denarius of this period that is similar to the Atilius piece. C. Talna uses the same types, head of Roma / Victory in biga, and has as his signature C\*TAL (the TAL in monogram form). Talna has been given the date 154 BC by Crawford (202/1). C. Scribonius also works in this period, but he uses the Dioscuri as his reverse type. If the new variety described is an example of a re-worked die, it would have to have originally been intended for C. Talna, that name then being partially erased and Atilius Saranus substituted for it. Logically therefore C. Talna must have preceded or been contemporary with Atilius Saranus.

The sequence of moneyers of the years in the middle 150's BC has undergone many revisions; indeed, virtually every scholar who has studied the period has come up with a different chronology. E. Babelon in his 1885 work on the coinage of the Roman Republic does place Atilius and Talna together as colleagues, along with C. Maianus (*Description Historique et Chronologique de Monnaies de la République Romaine*, Vol. I, pg. 226), although he dates their year in office to circa 194 BC on the assumption that C. Atilius Saranus is the Atilius in question. H.A. Greuber (*Coins of the Roman Republic in the British Museum*, Vol. I, pg. 99) lists Atilius, Talna and Pinarius Nata as the three colleagues. Crawford joins Atilius and Pinarius Nata as a minting pair in 155 BC, and likewise C. Scribonius and C. Talna in 154 BC, leaving C. Maianus as sole moneyer in 153 BC. Sydenham lists Atilius, Talna, Scribonius and Nata in that order without further specification, and leaves Maianus out of the sequence, placing him in the decade of the 130's BC.

While our new variety will not by itself resolve all the problems of the chronology of this period, it does suggest further revisions will be needed as studies of the sequence of Republican moneyers progress.

### A Selection of small Constantinian Folles from the Nether Compton Hoard.

The Nether Compton Hoard was found by members of the Yeovil Metal Detecting Club in 1989. The hoard numbered in excess of 22,000 coins. It is the fourth largest hoard of its kind found in Britain. For the last four years this hoard has been at the Dorset County Museum for study, it was recently returned to the finders and is now being sold in the marketplace. The vast majority of the pieces in the hoard are in poor condition. From the top one thousand pieces in the hoard we are happy to present an outstanding selection of minor varieties that collectors of this period so avidly collect.

## Extremely Rare Groat of Robert III

731. **Robert III.** 1390-1406. AR Groat (2.84 gm). Heavy Coinage, 1390-1403. Crowned bust within tressure of nine arcs / VILLA EDINBURGH, lis stops in legends. Burns 14 var.; Seaby 5164B. VF. Extremely rare, unpriced in Seaby. (See enlargement on back cover.) \$900/£600

732. **James V.** 1513-1542. AR Groat (2.64 gm). After 1526. Crowned bust with open mantle; two rows of five pellets each on crown, pellet by shoulder / Arms on cross; trefoil stops. Burns-; Seaby 5378. VF. \$300/£200

No silver coinage was struck for James V until the middle part of his reign, when James Achesoun was contracted to produce fine silver groats to supplant the billon placks that served as minor currency. Four main varieties of groats have been noted, differentiated primarily by changes in the king's mantle and crown. While this is the second mantle type, this particular crown type is not noted in Burns' exhaustive study of the coinage.

754. "Billie and Charlie". Circa 1860. Pewter Amulet 48mm. Facing bust of a king / Facing bust of a bishop, nonsense date 1199. A nice example of the work of Billie Monk and Charlie Eaton, two 19th century "mudlarks" who scavenged the banks of the Thames river for coins and artifacts to sell to collectors and museums. Deciding it was more profitable to produce their own antiquities, and happily unaware of history or literacy, but eager to please, they adapted designs taken from the pages of popular magazines depicting medieval times, devised fanciful legends and fictitious dates and created their own unique categories of forged amulets, tokens and pilgrim badges. Amazingly, in retrospect, enough scholars were duped by the new "discoveries" to allow Billie and Charlie to supply an active market for several years before their activities were revealed. A fascinating piece of Victoriana, examples of which even today will sometimes appear in catalogues as genuine medieval artifacts. \$75/£50
